

Nerine in Top 25 Trust Companies 2015

Nerine Trust Company Limited

28 April 2015

Nerine Trust has been recognised as one of Private Client Practitioner's Top 25 Trust Companies 2015.

Private Client Practitioner, a publication for leading private client professionals, announced the winners on 27 April. The Top 25 Trust Companies recognises the biggest and best firms giving high quality advice to wealthy individuals.

The rankings are based on a survey of around 100 trust companies in the UK

and UK offshore which assessed areas including the number of client-facing directors, number of client-facing trust officers, total number of staff and 2014 fee income. The survey recorded an overall increase within the trust sector for fee income and staff numbers since last year identifying M&A activity and increased regulation as contributing factors.

Nerine Trust was established in Guernsey in 1997 and now has offices in the British Virgin Islands, Switzerland, Hong Kong and India employing 90 staff worldwide.

Nerine was recently recognised as Independent Trust Company of the Year in the highly-regarded Society of Trust and Estate Practitioner (STEP) Private Client Awards for 2014/15 and has been shortlisted in the Independent Trust Company of the Year category of the Citywealth Magic Circle Awards 2015. This is the third time the company has appeared on Private Client Practitioner's Top 25 Trust Companies list.

Executive chairman Keith Corbin said: "Nerine has developed significantly over the last 12 months but our core focus remains the same – delivering an exceptional service to our international client base. Being named in the Private Client Practitioner list of the top 25 trust companies shows we are getting it right."

"It is particularly interesting to see this year's results indicate such buoyancy in the trust sector, with both staff numbers and fee incomes increasing across the 100 companies surveyed. This is in part a result of the increase in mergers and acquisitions within the industry and we are extremely proud that Nerine has seen comparable success while remaining truly independent."
