Nerine's Donna Brehaut on top young professionals list

Nerine Trust Company Limited

7 September 2017

Donna Brehaut, a trust manager at Nerine Fiduciaries in Guernsey, has been named on ePrivate Client's Top 35 Under 35, an annual list compiled to recognise the potential of young private client practitioners across the United Kingdom.

The list is compiled following a judging process which focuses on the strength of the nomination, achievements over the past 12 months and career progression.

Ms Brehaut has worked for Nerine Fiduciaries for ten years and was promoted in December 2016 to her current position as trust manager; where she oversees an administration team dealing with global high net worth clients and family structures with a focus on international clients and succession planning.

A member of STEP as well as a member of the Chartered Institute of Management, Donna also manages two of the five highest revenue-earning clients and handles around 70 portfolios.

"Donna is an exceptionally hard working member of our team and consistently provides a high level of service to each and all of her clients," said Nerine's client services director, David Morris.

"This recognition of her work ethic and potential is significant and will propel her into a future where she will excel even further."

The list is compiled by ePrivate Client and showcases and celebrates leading young private client practitioners, spanning from lawyers to trustees. This year, a record number of submissions were received from over 70 firms across the United Kingdom and Crown Dependencies. Those named on the list, 35 men and 35 women, will meet later this month to celebrate their success at a champagne reception in London.
