## Nerine's Melanie Ison named in Top 200 Powerwomen list

### Nerine Group of Fiduciaries

*29th November 2017*

Nerine Group of Fiduciaries (Hong Kong) managing director, Melanie Ison, has again been named in Citywealth's International Finance Centre's (IFC) Powerwomen top 200 list.

The list recognises and celebrates women in wealth and champions their achievements throughout the year. The list includes influential and professional women from different backgrounds across international finance centres, including government, private wealth, private client advisory, education and philanthropy.

Last year, Melanie was shortlisted for the Powerwomen Awards Woman of the Year - Leadership (Professional Services) and has been named in the top 200 list every year since 2014. She has also been named in Citywealth's leader list in 2015 and 2014.

Melanie joined Nerine in 2009, and has led her team since 2012. She was appointed Hong Kong managing director in 2015. Her role includes overseeing Nerine's growth in Asia, working with a number of intermediaries and clients and managing a team of seven staff in Hong Kong directly. Melanie also sits on the group's senior management team where she contributes to Nerine's vision for the future.

"All of us at Nerine congratulate Melanie for being named in the Powerwomen's top 200 list. She epitomises strong female leadership and the value that it adds to our business," said chairman, Keith Corbin.

"Melanie's name on this list again shows the consistent nature of her achievements and the example she sets for future female leaders."
